

# SMILE SURVEY DATA ENTRY

February 10<sup>th</sup> , 2022

It Is Data Collection Time!

# Smile Survey Data Collection

## **One main new thing:**

Using MS Forms for collection

## **Most of the rest...pretty similar:**

State and County sampling

Coordination through DOH and ARCORA

Oh...and fun! The fun is the same.

# How the Survey Works

---

## ● **Multiple Surveys: State and County (data collected the same way)**

*State Survey:*

Sponsored by WA DOH, Shelley does coordination

One survey valid for entire state population.

*County Survey(s):*

Sponsored by ARCORA, Dana does coordination

Each county survey independent and valid for its jurisdiction

Schools can move from one survey to another. Dynamic process!

Justin will keep track of which school is in which survey, he works on 'em all.

# Exception to the Previous Slide

---

**Because there always are some.....**

## **Seattle-King County**

Coordination by

*Aji Jobe and Christi Storbo*

## **Tacoma-Pierce County**

Coordination by

*Dawn Jacobs*

# Data Entry Forms

---

## Data Reporting

### Entry into MS Forms

<https://forms.office.com/Pages/ResponsePage.aspx?id=F-LQEU4mCkCLOffcWsfXLcXNCSfkGb5PsdYno6bDchRUQIM0VDRUUUIETzVaVUFMV0wyQ0ZURzhSTy4u>

(School Data Form)

<https://forms.office.com/Pages/ResponsePage.aspx?id=F-LQEU4mCkCLOffcWsfXLcXNCSfkGb5PsdYno6bDchRUQzFWSUk1MTcyRzBESVgwSzJER1VRQlc0WC4u>

(Child Data Form)

# Cheat Sheet

---

**All State Student ID Numbers are 10 digits long.**

*No more, no less. Form will reject any other number.*

**All School ID numbers have values less than 2,000**

*Form will reject any number over four digits.*

**All School “Clusters” use 3<sup>rd</sup> Grade School ID Number**

*Form doesn't know what is 3<sup>rd</sup> what is 2<sup>nd</sup>.*

*You have to make sure it is the right one.*

*Sorry, no goof proofing for this field.*

---

# Suggested Data Collection Approach #1

## (Optional)

Recommended to collect data on paper forms at schools

Why?

*Accuracy can be diminished when under pressure.*

*Student ID number is 10 digits long and accuracy is critical*

---

## Suggested Data Collection Approach #2 (Optional)

Later versions of the iPhone and iPad have a scanner application which can be used to scan SSID#

Why?

*Accuracy can be diminished when under pressure.  
Student ID number is 10 digits long and accuracy is critical*

Number in red has only 9 digits. Was manually recorded.  
Other numbers all have 10 digits. Were scanned.

Student ID Number	Treated Decay
817299634	No Treated Decay
2740000684	Primary & Permanent Teeth
2111746694	Primary Teeth Only
6515717722	No Treated Decay

Thank you.
